FEEDING DIRECTIONS

This is a pelleted ration for dairy goats and meat goats. Feed up to 5 lbs. per head daily along with adequate amounts of good quality forage. The amount fed will depend on the goat's age and stage of production. Kid goats may be started on this product at a young age. Growing does should receive 2.5 to 3 lbs. while growing bucks should receive 2.5 to 5 lbs. per head daily. Pregnant and lactating meat goats should receive 2.5 to 5 lbs. of this product according to desired body condition and forage quality.

Always provide adequate amounts of fresh, clean water.

Warning:

This product contains copper and should not be fed to sheep.
